 The role of oxidative stress, inflammation and acetaminophen exposure from birth to early childhood in the induction of autism

Holzknicht, Zoie E.; Gentry, Lauren; Rao, Rasika; Lin, Shu S.; Herbert, Martha R.;

induction of autism is invariably linked with either inflammation or oxidative stress. Acetaminophen exposure in babies and young children may be much more strongly associated with autism because of well-known deficiencies in the metabolic breakdown of pharmaceuticals. The increased prevalence of autism is that increased exposure to acetaminophen, which is neurotoxic in babies and small children. This view mandates extreme urgency in reducing acetaminophen use in babies and the possibility that many cases of infantile autism may actually be induced at birth.

Keywords: oxidative stress inflammation review; Autism; acetaminophen; inflammation; oxidative stress;

The image shows a screenshot of the Periodicals Index Online (PIO) interface. A modal window titled "Cita" is open in the center, displaying citation information for an article. The modal includes a dropdown menu for the citation style (APA 6th - American Psychological Association, 6th Edition) and a text box containing the citation text: "THE CONCORD SCHOOL ON DANTE.: DANTE AND VIRGIL. DANTE'S TEACHERS. THE DIVINA COMMEDIA, DANTE AND BEATRICE. DANTE'S PLACE. SIN AND CRIME WITH DANTE. (1886, Aug 07). *The Literary World; a Monthly Review of Current Literature (1870-1904)*, 17, 263. Retrieved from https://www.proquest.com/magazines/concord-school-on-dante/docview/90136961/se-2". Below the citation text, there is a "Copia" button. The modal also features a section for "RefWorks" with a link to consult style guides, and a section for "Esporta nella funzione di gestione delle citazioni o in" with icons for RefWorks, EndNote, RIS, NoodleTools, EasyBib, and Formato Microsoft Excel. A red arrow points to the RIS icon. The background shows a list of search results for "dante" with various article titles and icons for citation management. A red circle highlights the citation management icons (quotes, envelope, and document) on the right side of the search results.

Dante Alighieri

(3,014 words)

Author(s): Wolfzettel, Friedrich A. **Life and work**The Italian poet, scholar, and statesman proclaimed its descent from the 'holy hero of the faith by King Conrad III in Ravenna. Orphaned at a young age, Dante was raised in the family of the urban nobility that traced its lineage back to an ancestor Cacciaguida, knighted as a taking part in an embassy to the pope, probably received his first schooling ...

Abstract

It was a bright October morning in 2012, and Grant Pattison, CEO of Massmart Holdings, took time to look at the Sandton skyline out of his fifth floor office. It was almost two years, since US retail giant Walmart had given notice of its intent to buy a majority shareholding in Massmart. Pattison was amazed at how much had happened since then, and how much he had learnt through a merger process, which had become a protracted legal battle. The Competition Appeal Court had, however, just given its final ruling on the matter. Looking back, he wondered what he would have done differently, had he known that the approval process would not be plain sailing.

Stress concentration phenomenon before the 2011 M9.0 Tohoku-oki earthquake; its implication for earthquake prediction

Y. Q. Zhang and F. R. Xie

Stress concentration phenomenon before the 2011 M9.0 Tohoku-oki earthquake; its implication for earthquake prediction (In AGU 2014 fall meeting, Anonymous)

American Geophysical Union Fall Meeting (December 2014) 2014

Abstract

According to rock mechanics, there exists a stage of stress accumulation before final failure, this kind of stage also exists in the seismogenic process, but this kind of stage always hide behind the vast seismicity data. There are 5 large earthquakes ($M > 7.0$), generalized foreshocks, occurred in the same area of M9.0 Tohoku-oki Earthquake from 2003 to 2011, and they formed a unique pattern which is similar to the

The screenshot shows the PubMed website interface. At the top, there is a blue header with the NIH logo and the text "National Library of Medicine National Center for Biotechnology Information". A search bar contains the text "blood transfusion" and a "Search" button. Below the search bar, there are buttons for "Save", "Email", and "Send to". The "Send to" button is circled in red. A dropdown menu is open from the "Send to" button, showing options: "Clipboard", "My Bibliography", "Collections", and "Citation manager". The "Citation manager" option is highlighted with a red arrow. The main content area displays search results for "blood transfusion". The first result is titled "Approaches for Blood Transfusion in the Developing Countries." and includes a citation: "Am J Trop Hyg. 2016 Apr;30(2):477-95. doi: 10.1016/j.toh.2015.11.011". The second result is titled "Blood transfusion." and includes a citation: "Semin Hematol. 1999 Oct;36(4 Suppl 7):48-58. PMID: 10595754". The "PMID: 10595754" link is highlighted with a red arrow. On the left side, there is a "RESULTS BY YEAR" chart showing a significant increase in results starting around 2010. There are also filters for "MY NCBI FILTERS" and "TEXT AVAILABILITY" (Abstract, Free full text, Full text).
